Installation and assembly:
Remote Control Extender Kit

Model: ACIRK02: 2-Way Remote Control Extender Kit
ACIRK04: 4-Way Remote Control Extender Kit

• Extends remote control signal to enclosed AV equipment
• Works through cabinet doors for a clean & tidy appearance with AV equipment concealed from view
• Allows you to take control of two (ACIRK02) or four (ACIRK04) infra red operated AV devices
**WARNING**

- Do not begin to install your Peerless product until you have read and understood the instructions and warnings contained in this Installation Manual. If you have any questions regarding any of the instructions or warnings, please contact Peerless using the information on the back of this manual.
- Do not use this product near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarised or grounding-type plug. A polarised plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Only use attachments/accessories specified by the manufacturer.
- Unplug the apparatus during lightening storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or adaptor is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- The supplied AC power adaptor contains no user serviceable parts. Never remove the cover or attempt to modify the adaptor in any way.
- The AC power adaptor is intended for use with this Remote Control Extender Kit only. Do not use with any other equipment.
- Inadequately protected or sensitive electronic equipment may be affected or damaged by the use of this product. Please check whether or not this product can affect surrounding equipment.

* Dependent on model: ACIRK02 = 2 repeaters/shrouds, ACIRK04 = 4 repeaters/shrouds
1a Site the IR Repeater (B) directly in front of the AV equipment’s IR receiver window where space allows, affixing with the self-adhesive pad on the underside of the repeater.

1b Use the self-adhesive Rubber Shroud (E) to place the IR Repeater (B) directly over the AV equipment’s IR receiver window.

2 Place the IR Receiver (C) adjacent to the TV and ensure it is not obstructed by other objects.

3 Referring to the system connection diagram (see step 4 below), site the IR Control Box (A) where all connecting cables can reach the box. Affix to the furniture* cabinet using 4 x Self Tapping Screws (F)

4 With the AC Power Adaptor (D) unplugged from the IR Control Box (A), connect the system as shown below. For the ACIRK02 model, the IR extenders (B) can be connected to any of the IR Control Box’s four IR extender sockets. When complete, plug in the AC Power Adaptor.

* Wooden panels only. Consult the Instruction Manual for your furniture as to the suitability of fixing the IR Control Box.
When using the Remote Control Extender Kit, aim your remote control at the IR Receiver (C) rather than the TV or cabinet.

- **Green LED Power Indicator**
  - Permanently illuminated when powered.

- **Red LED**
  - Will flash showing correct IR activity.
