

Peerless-AV Spotlights New Outdoor Soundbar

BOOTH 2902 Peerless-AV is showing the Xtreme Outdoor Soundbar at CEDIA 2016.

Producing full range audio (50 Hz-20 kHz), Peerless-AV's Xtreme Outdoor Soundbar (SPK-060) is ideal for homeowners looking to maximize their outdoor audio experience. The only powered outdoor sound bar on the market, the Xtreme Outdoor Soundbar offers 180W of total system power, producing higher quality sound at a louder volume.

Peerless-AV's SPK-060 Xtreme Outdoor Soundbar

With an IP65 rating, the Xtreme Outdoor Soundbar is a true outdoor solution, able to withstand any climate and weather changes.

For ease in use, the soundbar features a universal mounting option, making it possible to integrate with any display or TV. Plus, set-up is simple with a

direct-wired connection.

The Xtreme Outdoor Soundbar can also be used as a standalone product thanks to its Bluetooth compatibility, which allows for music to be wirelessly streamed from any Bluetooth enabled device.

Jetbuilt Streamlines Processes

BOOTH 8205 Jetbuilt is streamlining and enhancing the Request for Proposals and Project Sharing process with its newest online tool. The Jetbuilt RFP Project Sharing tool eliminates the need for antiquated spreadsheets while providing increased ease of collaboration with clients and vendors.

Jetbuilt's newly released functionality allows consultants, facility managers and technical directors to utilize the intuitive software to easily go from building rooms and systems, to defining the scope of a project. As users create their RFPs, they can manage photos, drawings and documents associated with the project and effortlessly drop in products from the Jetbuilt database before budgeting their projects and finally creating and delivering a high-end, comprehensive RFP. Then, the project can be shared with vendors to allow for straightforward and immediate collaboration. Users can chat as they work together to refine their project—while the original project remains saved. This allows the project to evolve while working with a selected vendor.

MuxLab Showcases New AV over IP Solution

BOOTH 3723 At CEDIA, MuxLab is launching its Video Wall 4K/60 over IP Extender Kit (model 500760), a new AV over IP product that helps define high-performance AV infrastructures in residential environments. The Video Wall 4K/60 over IP Extender Kit supports the distribution and extension of uncompressed 4K video in the HDMI format. Integrators can install a unique, custom-sized video wall comprised of potentially hundreds of displays supporting resolutions up to 4K@60Hz. The kit includes a transmitter and receiver, and multiple displays can be added with additional receivers. Displays can be stacked and extended up to 100 meters from the Ethernet switch using standard CAT5/6 cable.

"The emphasis for MuxLab right now is in taking the lead when it comes to AV over IP solutions with simple to configure software that can set up a network switch and create a video wall with complete flexibility and ease," says MuxLab president Daniel Assaraf.

New Leadership Roles, Hires at AVAD

BOOTH 3416 AVAD LLC is announcing the latest changes to leadership roles with the promotion of Jon Zabel as Vice President of Sales and Merchandising and Don Anderson as Vice President of Enterprise Services and Human Capital. In addition, Jill Sawchak and Brian Carter join the AVAD team as Vice President of Accounting and Finance and Vice President of Operations, respectively.

Zabel has been an integral asset to AVAD over

the last 12 years and will continue to lead the sales and vendor management teams.

A five-year AVAD veteran, Anderson will lead the new Human Capital team, which provides resources and develops best-in-class initiatives for associate experience, and will serve as a leader of the Information Systems and other enterprise service areas.

Sawchak joins AVAD LLC, to lead all critical accounting and finance functions after previous

experience as the director of accounting operations, reporting and compliance for Full Beauty Brands, Inc., a distributor of apparel and home décor.

Carter joined AVAD LLC on July 1 following the purchase of AVAD by Kingswood Capital Management. In his new position he will lead all logistics and operations, including warehousing, supply chain and logistics for existing and expanding customer footprint.
