## **Peerless-AV™ Debuts New 3x3 Universal Video Wall Cart; Holds Nine 46” to 55” Flat Panel Displays**

*Easy to Use Cart with Display Alignment Options Ideal Choice for Professional Staging & Rental; Features 1,000 Pound Capacity to Handle Multi-Display Image and Video Presentation*

**LAS VEGAS (March 6, 2012)** – Peerless-AV, the leader in innovative audio and video solutions, announced today the launch of the industry’s first 3x3 Universal Video Wall Cart, the DS-VWC655-3X3. The product will be on display March 6-9 at the Digital Signage Expo (DSE) 2012 in Las Vegas at Peerless-AV’s booth #1111.

The 3x3 Universal Video Wall Cart is the first of its size to be introduced to the digital signage market and can hold nine flat panel displays measuring 46- to- 55-inches. Aesthetically appealing, the cart features a covered shelf that effectively hides media devices and upright channels to organize cables. Five-inch casters are sturdily constructed in order to support up to 1,000 pounds of flat panel displays and can swivel fully 360-degrees for maneuverability. A unique positioning feature enables simple flush alignment without tools.

“We are very pleased to present our innovative 3x3 universal video wall cart at DSE,” said Peerless-AV Director of Business Development, Jeff Blankensop. “This product holds nine flat panel displays, making it the ideal solution for rental and staging companies that need a mobile multi-display solution that offers clean presentation of content. It’s easy to setup, requiring virtually no tools for installation adjustment, and features several alignment options for optimal flexibility.”

Additional new Peerless-AV products featured at the DSE Expo include the landscape oriented flat panel display kiosks KL540-S and KL546-S, and the portrait style kiosk KP555-S.
