Peerless-AV™ to Showcase New 3x3 Universal Video Wall Cart at InfoComm 2012; Holds Nine 46” to 55” Flat Panel Displays

Easy to Use Cart with Display Alignment Options Ideal Choice for Professional Staging & Rental;

Features 1,000 Pound Capacity to Handle Multi-Display Image and Video Presentation

LAS VEGAS (June 13, 2012) – Peerless-AV, the leader in innovative audio and video solutions, announced today it will be showcasing its industry-first 3x3 Universal Video Wall Cart, the DS-VWC655-3X3, at InfoComm 2012 June 13-15 at the Las Vegas Convention Center in booth C8719.

The 3x3 Universal Video Wall Cart is the first of its size to be introduced to the digital signage market and can hold nine flat panel displays measuring 46- to- 55-inches. Aesthetically appealing, the cart features a covered shelf that effectively hides media devices and upright channels to organize cables. Five-inch casters are sturdily constructed in order to support up to 1,000 pounds of flat panel displays and can swivel fully 360-degrees for maneuverability. A unique positioning feature enables simple flush alignment without tools.

“We are very pleased to present our innovative 3x3 universal video wall cart at DSE,” said Peerless-AV Director of Business Development, Jeff Blankensop. “This product holds nine flat panel displays, making it the ideal solution for rental and staging companies that need a mobile multi-display solution that offers clean presentation of content. It’s easy to setup, requiring virtually no tools for installation adjustment, and features several alignment options for optimal flexibility.”

Additional new Peerless-AV products featured at the DSE Expo include the landscape oriented flat panel display kiosks KL540-S and KL546-S, and the portrait style kiosk KP555-S.

For more information about the DS-VWC655-3X3, stop by the Peerless-AV booth C8719 at InfoComm 2012 or visit
