

Peerless-AV® Announces Multi-Display Ceiling Mounts

Mounts feature adjustable telescoping arms to support three, four, or six displays

AURORA, Ill. – October 1, 2014 – Peerless-AV®, the leader in AV and digital signage mounting solutions, today announced a new line of multi-display ceiling mounts.

Ideal for use in high-traffic public areas, such as athletic clubs, corporate settings, restaurants/bars, retail, stadiums, convention centers, and transportation applications, Peerless-AV's Multi-Display Ceiling Mounts minimize mounting costs and maximize space with mounting options for three, four, or six displays.

Peerless-AV's line of Multi-Display Mounts include:

- **[DST980-3](#)**: Supporting 37" to 80" displays, the DST980-3 Multi-Display Ceiling Mount includes telescoping arms that hold three displays evenly spaced in a triangular configuration.
- **[DST975-4](#)**: Supporting 37" to 75" displays, the DST975-4 Multi-Display Ceiling Mount includes telescoping arms that hold four displays evenly spaced in a square or rectangular configuration.
- **[DST942-6](#)**: Supporting 37" to 42" displays, the DST942-6 Multi-Display Ceiling Mount includes telescoping arms that hold six displays evenly spaced in a circular configuration. There are currently no other mounts on the market offering a six-arm option.

All of Peerless-AV's Multi-Display Ceiling Mounts feature adjustable telescoping arms that allow the installer to set the spacing between each display to meet the application's need – a feature offered only by Peerless-AV. With 360° of swivel in the initial set up, and 0° to 20° of tilt, the mounts create the perfect viewing angle for any application.

Designed with superior aesthetics in mind, the mounts include a bottom cover – offering sleek and clutter-free cable management throughout the entire solution.

"Many of our customers are looking for ways to maximize impact with their digital signage, but are limited on space," said John Potts, President, Peerless-AV. "With our Multi-Display Ceiling Mounts, customers have the flexibility to not only mount up to 6 displays in one area, but to also adjust the displays for the most aesthetically pleasing look to meet their needs."

Peerless-AV's Multi-Display ceiling mounts are currently available through Peerless-AV direct sales representatives and authorized distribution network.
