

## **Peerless-AV® to Showcase Line of Innovative Audio-Visual Solutions at InfoComm 2015**

*New kiosk enclosures, mounts, video carts, wireless audio solutions, and more on display at InfoComm Booth #3401*

**ORLANDO – June 17, 2015** – Peerless-AV®, the leader in innovative audio and video solutions and accessories, is pleased to showcase its products at InfoComm 2015. Peerless-AV's Daytona 500-themed booth (#3401) will feature the PeerAir™ Pro Wireless AV Multi-Display System, Xtreme™ Fully Sealed Weatherproof Displays, SmartMount® Video Carts, a new line of sleek multi-media kiosk enclosures, new mounts, and more.

Visitors will also have the opportunity to enter Peerless-AV's Daytona 500 Giveaway for a chance to win two tickets to the VIP section at the 2016 Daytona 500, a two-night hotel stay, airline gift card, and spending money.

Peerless-AV products on display at InfoComm 2015 include:

### **Mounts**

InfoComm 2015 marks the debut of the new Peerless-AV Designer Series, featuring the *Articulating Wall Mount* (SUA771PU)—one of the thinnest wall arm mounts on the market, designed exclusively for ultra thin displays.

Reflecting remarkable form and function, the newly redesigned SmartMount® 700 Series line of articulating wall mounts and pivot wall mounts, including the *SmartMount® Universal Articulating Wall Mount* (SA752PU), will also be showcased. Extending flat panel displays up to 27.43" from the wall, the SA752PU allows for a full 180° of side-to-side motion for the perfect view positioning of displays up to 55".

Peerless-AV will also be showcasing a variety of mounts, including full service video wall mounts with quick release, ceiling mounts with media player storage, digital menu board mounts, projector mounts, and more. For ergonomic office design, Peerless-AV will showcase monitor wall arms with extension and laptop trays for monitor mounts.

### **Carts**

Peerless-AV's line of SmartMount® video carts are cost-effective, safe, and aesthetically pleasing. In lieu of purchasing multiple displays for multiple rooms, users can order one display and create a mobile solution, saving time and money, making telecommunication a breeze. The all-new SmartMount® carts are UL® tested and certified, ensuring safe mobility without the fear of tipping or structural

failure. Peerless-AV's InfoComm display will incorporate SmartMount® portable video cart solutions for single and multiple 32" to 98" displays.

### **Kiosks**

At InfoComm, Peerless-AV will be launching a new line of indoor floor-standing kiosk enclosures that are suitable for any indoor application, housing 40"-80" displays in portrait orientation. The easy-to-install, sleek, and affordable line offers customization (visually and through the KioskBuilder™), multiple configurations, proximity sensors, speakers, ambient lighting, anti-glare treatments, and more, while maintaining a small footprint.

Offering variety in digital signage solutions, Peerless-AV will also be showcasing its full line of kiosks including on-wall, in-wall, portrait, landscape, indoor, and outdoor solutions. Additionally, custom kiosks offering various features such as printers, cameras, and scanners will be shown.

### **Audio/Video Solutions**

Wireless innovations on display include:

- *PeerAir™ Pro Wireless AV Multi-Display System (HDS300)*: When running wires isn't possible, the PeerAir™ Pro with an extended wireless distance of 201 feet, is the ideal solution. It can multicast Full HD 1080p and passive 3D signals wirelessly to up to 6 displays, and with a pass thru port on the transmitter, a seventh display can be wired locally. Also on display at InfoComm is the *PeerAir™ Wireless HD Multimedia System ([HDS-WHDI100](#))*, with a wireless distance of 100 feet.
- *PeerSound™ Wireless Audio System ([ADS100-B](#))*: The industry's first and only rack mountable wireless audio transmission system with a remote antenna that allows professional installers and integrators to send up to 8 channels of audio wirelessly to receivers/speakers up to 140+ feet away.
- *Pico AV Broadcaster ([HDS-PB100AV](#))*: Broadcasts HD content to an unlimited number of DTVs that have an ATSC tuner and over-the-air antenna within a 350 feet (106m) radius through any open local white space channel.

### **Outdoor Displays**

Ideal for various digital signage applications, Peerless-AV's *Xtreme™ Outdoor Daylight Readable Displays* are 100% sealed and engineered to endure the outside elements in all seasons. Ventless with full 1080p HD flatscreens, the Xtreme™ displays are designed to withstand extreme heat (+140°) and extreme cold (-40°) without damaging the LCD. Relying on a patented Dynamic Thermal Transfer™ system to cool or warm internal components during extreme weather, the Xtreme™ displays remove the need for external filters, vents and exhaust fans. In addition, the patented design completely seals all internal components as well as the cable entry – protecting the display from rain, sleet, snow, dust, insects and even pressure washing.

Far surpassing ordinary outdoor displays, the Xtreme™ displays have achieved IP68 and NEMA 6 ratings with true ease. The displays are maintenance free, cost-effective, and reliable even in the harshest of conditions.

***Peerless-AV will be exhibiting solutions that “Get it Right” at Booth 3401. For media appointments, please contact Beth Gard at [bethg@lotus823.com](mailto:bethg@lotus823.com) or 732-212-0823.***

#### **About Peerless-AV**

Peerless-AV, a Peerless Industries, Inc. company, is a leading designer, manufacturer and distributor of audiovisual solutions. From its award-winning mounts and wireless audio systems to indoor/outdoor kiosks and the industry’s first fully sealed outdoor displays, Peerless-AV aims to Get it Right by fulfilling both integrators’ needs for ease of installation and service, and end-users’ dreams in residential and commercial applications.

Based in Aurora, IL, Peerless-AV manufactures over 3,600 products that serve original equipment manufacturers, commercial integrators and consumer retailers in 22 vertical markets through direct sales representatives and authorized distribution.
