

Peerless-AV® Helps Facilities Get It Right with New Ligature Resistant Display Enclosures

Ligature Resistant Display Enclosures are ideal for Mental Health and Correctional Facilities

AURORA, Ill. – June 4, 2015 – Peerless-AV®, the leader in innovative audio and video solutions and accessories, is pleased to announce the launch of its Ligature Resistant Display Enclosures (K62232-S-GR01 and K65225-S-GR01).

Ideal for hospitals, medical centers and prisons, the Ligature Resistant Display Enclosure is designed and manufactured with safety in mind, to protect both patients and facility equipment.

The sloped top design, the preferred design for mental health wards, is mounted flush to the wall and prevents tampering, theft, and damage to displays. Additionally, the electrical and cable TV outlets can be protected by the cover, keeping wires and cables away from patients.

“Peerless-AV worked closely with healthcare experts to design this product to ensure it meets the needs of our users,” said John Potts, President, Peerless-AV. “With the specific features of our Ligature Resistant Display Enclosure, it is the ideal solution for mental health facilities and prisons alike.”

The Peerless-AV Ligature Resistant Display Enclosure (K62232-S-GR01 and K65225-S-GR01) is currently available for purchase exclusively through Grainger®.
