

InFocus Mondopad Line

The What: InFocus Corporation has released a new line of Mondopad collaborative display solutions. Comprising 12 models designed around the specific needs and budgets of various office environments and meeting spaces, Mondopad Core, Mondopad Launch, and Mondopad Ultra are available in 55-inch, 65-inch, 75-inch, and 86-inch models.

The What Else: Offering essential tools for collaboration without cluttering the user interface with unnecessary apps, Mondopad Core is the affordable baseline of the new Mondopad, offering a solution for small businesses, government agencies, and huddle rooms. Users can utilize the 4K business-grade touchscreen with embedded Android

and a suite of tools for casting, whiteboarding, viewing documents, and browsing the web.

Designed for organizations that need easy access to shared software and tools, Mondopad Launch is a configurable solution for group workspaces. Building upon the Mondopad Core model, Mondopad

Launch adds a seventh-generation Intel i5-based Windows 10 Pro PC and additional customization options. A lock-down feature allows individual users to easily login and quickly gain access to only the apps they care about, and a customizable home screen with large, convenient buttons means meetings start quickly, and the touchscreen can be easily reset before the next meeting.

A seamlessly-integrated, high-performance collaboration system that is secure and easy to use right out of the box, Mondopad Ultra takes collaboration to the next level. Built on a seventh-generation Intel i7-based Windows 10 Pro PC, Mondopad Ultra features an integrated suite of collaboration apps including video conferencing, whiteboarding, casting, a web browser, and full Microsoft Office suite for a truly efficient face-to-face collaboration system

The Bottom Line: All 12 new Mondopad models are available now in the U.S., as well as a variety of accessories such as the SimpleShare Presentation System, Thunder Speakerphone, and mounting solutions for wall, floor, and mobile applications. Contact an authorized InFocus reseller for pricing.

Leyard and Planar VVW Series

The What: Leyard and Planar has introduced the Leyard VVR Series—a family of indoor and outdoor LED video wall displays designed to meet the fast-paced needs of the rental and staging industry.

The What Else: The Leyard VVR Series features magnetically-

attachable cabinets for fast assembly, easy access to electronics for simple maintenance, and a quick-lock system to support single-person installation and handling. It also incorporates the robustness, serviceability, and 24x7 support required for indoor and outdoor fixed installations. The series joins several other Leyard LED video wall solutions aimed at the rental and staging market, expanding the options available to this growing industry.

The Bottom Line: The Leyard VVR Series will begin shipping in the first quarter of 2019 through Leyard and Planar's worldwide network of authorized resellers.

Draper SmartTrim for Barco UniSee

The What: Draper has launched a trim solution for the Barco UniSee.

The What Else: SmartTrim for Barco UniSee is a patent pending, design protected solution co-developed with SMS Smart Media Solutions, a Draper subsidiary in Sweden. According to the company, it

provides a simple and elegant trim remedy for a wide range of standard and custom Barco UniSee configurations.

The Bottom Line: Standard kits for typical wall-mounted Barco UniSee video walls are available now. This includes 2x2, 3x3, and 4x4 as well as 2x4 and 3x4 configurations. Draper is also ready to provide custom and unique solutions for one-off Barco UniSee video wall applications.

Peerless-AV Heavy-Duty Projector Mounts

The What: Peerless-AV has added two new Heavy Duty Universal Projector Mounts (PJR125 and PJR125-POR) to its range of mounting solutions. Designed for use in applications including corporate, education, home entertainment, retail, live event, museums, and theme parks, the Heavy Duty Universal Projector Mounts support a wide range of projector models, including laser projectors, large venue projectors, and heavy LCD/LED projectors.

The What Else: Offering what the company calls the "largest mounting pattern in the industry," the mounts also accommodate projectors weighing up to 125 lbs.

Peerless-AV's projector mounts feature a low-profile design and simple Hook-and-Hang feature to help installers when securing the projector and making adjustments. The mounts include six universal legs (four pre-installed) that provide additional support for projectors with more than four mounting holes and are completely adjustable.

The Bottom Line: Peerless-AV's Heavy Duty Universal Projector Mounts (PJR125 and PJR125-POR) are available now through Peerless-AV direct sales representatives and authorized distribution networks.
