

PEERLESS-AV'S UPDATED CERTIFIED INSTALLER TRAINING PROGRAM

Peerless-AV's updated Certified Installer Training Program, led by longtime industry experts, provides attendees with the sales application and engineering experience to make every job successful. The four-level program is designed to give systems integrators and installers an edge over the competition by providing them with both industry education and Peerless-AV-specific training; the trainings are compliant with continuing education standards and are certified by both InfoComm and CEDIA.

Offering in-person or online webinar options, the courses demonstrate the importance of proper installation techniques and safety, and address efficient methods to reduce the risk of faulty installations. Attendees receive customized, hands-on sessions to fit their installation needs, and detailed takeaway resources that can be referred to again and again.

"We've revamped our Certified Installer Training Program to provide integrators with the tools necessary to walk away with a strengthened confidence and understanding on how to safely, efficiently, and effectively manage a variety of

installations," said Wade Wollock, director of corporate sales training.

The program consists of four levels (attendees can earn up to 4 InfoComm CTS RUs and 4 CEDIA CEUs):

Bronze Level: Getting to Know the Basics. Includes training for wall mounts and projector/display ceiling mounts with ceiling accessories.

Silver Level: Fundamentals of Digital Signage Solutions. Includes training for basic video wall mounts and carts, menu board wall mounts, and

kiosk product overview.

Gold Level: Advanced Digital Signage Solutions. Includes training for full-service video wall mounting options and multi-display ceiling applications.

Platinum Level: Mastering Wireless and Outdoor Solutions. Includes best practices for installation and setup scenarios for wireless systems, outdoor displays and sound bars, media enclosures, and touch overlays.

Peerless-AV also offers supplemental webinars through various publications several times a year.
